WHY WE STRESS QUALITY AND WHY YOU SHOULD BUY QUALITY

Under present State and Federal laws and in the legal system under common laws, all suppliers of goods have a legal duty to ensure all goods supplied are reliable and fit for the purpose for which they have been sold. We have a duty to protect our clients as you have a duty to protect yours. Failure renders us both liable.

Our structural products, e.g. posts and rafters, have been tested to meet the relevant design standard.

Install according to council requirements.

### Cancellations & Returns

Products returned in the same condition as when received will be accepted up to seven days if they are standard stock items. A surcharge of 15% applies to cover packing and handling.

Custom made non-stock items are non-returnable.
